

Add: NO.8 Kang Xiang East Street,Chong Tou Village,Chang An Town,Dong Guan City,Guang Dong Province,China.

Email: s5@smtfly.com / s4@smtfly.com <https://www.pcb-depanelizer.com>

Feature:

- Desktop single bench cutting machine, Speeds of up to 100mm/s, positioning speed 500mm/s
- Cut continuously without interruption during loading and unloading
- High quality shaft system allows the system to quickly ramp, reduce the period of time, Improve productivity, maintaining high precision
- Use high-quality hardware to ensure high rigidity and high performance All screws are protected from dust and dirt from entering to improve the life and performance of the shaft
- Use high-quality hardware to ensure high rigidity and high performance

Desktop PCB Router
Model:CWD-3A

Specification:

Motor drive system	Servo / stepper motor
Spindle speed	50000r/s
Cutting performance	500mm/s
Drive system repeatability	±0.02mm
Cutting speed	Max 100mm/S(depends on PCB material and cutting quality)
Resolution	±0.01mm
Configuration	X、Y、Z 3 axis
Repeatability	<0.1mm
PCB positioning	fixture
Load and unload way	Manually
PCB thickness	0.4mm-4mm
Security settings	emergency stop switch
Spindle motor power	0.5KW
Spindle motor speed	50000r/m
Spindle motor cooling	Air-cooled
Machine dimension	650*550*615mm
Weight	73KG
